## Self-employed? Protect your income for just a few dollars a day with Disability Insurance.

I am reaching out to share a suggestion that could protect your most valuable asset – your ability to earn an income.

Most of our time each day is spent working, to earn an income that allows us to spend time with family and plan for the future. But a sudden loss of income due to an injury or illness – even for a few months – can really de-rail plans.

Did you know the odds of a disabling injury or illness are 3.5 times more likely than dying prematurely? If this happened to you, would you be able to pay your monthly expenses? For a lot of people, it means increasing credit card debt or dipping into savings.

If you saved 5% of your income for 10 years,  
a disability would wipe out all of your savings in just 6 months!

[Income Replacement Benefits](#)<sup>1</sup> are an affordable way to establish a safety net that will be there to support you for the duration of your disability, without affecting your savings.

Use the Instant Quote link to get a quote for yourself, or if you are a small business with 3 or more employees, please contact me and I would be happy to provide a custom quote for Small Business Benefits.
