**Toll Free: 1-866-748-3718**

# MESSAGE FROM THE PRESIDENT

Once again the DABC is excited to host the 2018 convention at the River Rock Casino Resort in Richmond, and we are looking forward to seeing you! This will be our final year here and we have thoroughly enjoyed the convenience and hospitality of the resort.

This year's convention holds three days of continuing education. We listened to your feedback from last year, and are happy to announce that we have a vast array of timely topics from digital dentures to oral pathology.

We have scaled back the convention activities slightly this year. Thursday evening still brings us the 80's-themed hospitality night hosted by Henry Schein. Instead of hosting a formal gala on Friday evening, we are having an outdoor mixer. I hope you all join us outside on Friday at 4 pm for complimentary drinks and appetizers.

Our AGM will be held on Friday and I encourage all to attend. There are many important items on the agenda that need your attention and vote. For example, we will be discussing changes to our tax laws, advertising campaign, and voting on bylaw changes. Lunch will be provided on site as well as a chance to win the cost of your DABC convention package, a DACnet 1-year subscription and Perfecting Your Practice Package, Nov 1/2, 2018 in Mississauga. The executive committee will be in attendance to address any of your concerns.

We look forward to seeing you in September!

Gary Sallaway, DD

## OUR SPONSORS

*A special thank you to our sponsors! Without their support we would not be able to host such a great event!*

## W.H.M.I.S.

## Workplace Hazardous Materials Information System 2015

*8:30am-12:00pm with Pat Evangelisto*

**It is mandatory that all workers be trained in WHMIS. WHMIS is changing across the country and British Columbia is part of that change.** The Federal Government has adopted the Global Harmonized System (GHS) resulting in WHMIS being called WHMIS 2015 versus WHMIS 1988. There is a phase-in period that started in 2015 when suppliers were required to start changing their labelling systems and Safety Data Sheets (SDS) to reflect the new system. Employers will be required to fully comply with the new system by Dec. 1, 2018.

*Participants will gain knowledge in the following areas:*

- Introduction to the Occupational Health and Safety Act.
- Rights and Responsibilities as a business owner/employer
- Penalties for non-compliance
- What is the purpose of WHMIS
- Identification and exclusion of products covered by WHMIS
- Changes in the WHMIS legislation - GHS
- Different classes of hazardous materials and how to identify them
- Purpose of Labelling – supplier & workplace
- Material Safety Data Sheets
  - How to read them
  - Identifying the relevant information
  - Using the MSDS to protect the worker
  - What to do in the event of an emergency
  - First Aid considerations

It is mandatory that all workers be trained in WHMIS. WHMIS is changing across the country and British Columbia is part of that change. The Federal Government has adopted the Global Harmonized System (GHS) resulting in WHMIS being called WHMIS 2015 versus WHMIS 1988. There is a phase-in period that started in 2015 when suppliers were required to start changing their labelling systems and Safety Data Sheets (SDS) to reflect the new system. Employers will be required to fully comply with the new system by Dec. 1, 2018.

This course has been customized for people who provide denture/dental services, highlighting products they use on a regular basis. We will discuss the health and safety hazards of these products along with ways the manufacturers recommend that workers be protected. Testing is mandatory under law and a test will be conducted at the end of the program, which complies with the legislation. Each participant will receive course material and a certificate of participation recognizing that they are trained as per the Occupational Health and Safety Act.

# 80s Night

**THURSDAY SEPTEMBER 20, 7:00PM-12:00AM**

**THURSDAY**

**SEPTEMBER 20**

**CONTINUING  
EDUCATION**

## **CPR/AEC Level C Certification and Recertification**

*9:00 am – 12:00 pm or 2:30 pm*

This course provides the skills needed to recognize and respond to cardiovascular emergencies and choking for adults, children, and babies. It also includes how to perform rescue breathing. It includes using an automated external defibrillator (AED), also known as the 'shock machine'. Upon completing the course successfully, participants will receive: 3 Year Certification in CPR / AED C and the latest Canadian Red Cross or Lifesaving Society CPR / AED Manual.

## **Denstply Sirona- Prosthetically Driven Treatment: How to work in a positive multidisciplinary environment to obtain excellence in patient care.**

*9:30-11:30am with Dr. Cheryl Cable, BSc DDS MBA FRCD(C)*

Working in a multidisciplinary team with other healthcare providers is key to obtaining success in patient centred care. Acknowledge and respecting the roles and abilities of each provider group as well as careful treatment sequencing facilitates success. How can we communicate, facilitate and execute as a well oiled machine to ensure patient, clinician and community success. This talk outlines basic treatment and communication sequencing between different oral health care providers, government agencies and patients. Oral health care is health care. United we stand.

### **Dr. Cheryl Cable BSc DDS MBA FRCD(C)**

Dr. Cable is a board certified specialist in Prosthodontics and Maxillofacial Prosthodontics (Mayo Clinic 2001). She has been a past president of the Alberta Academy of Prosthodontists for five years as well as the president elect for the Alberta Society of Dental Specialists. She is a knowledge network leader for the Canadian Dental Association (CDA) and has published for scientific journals, magazines and for online forums. She has taught at the University of Alberta since 2001 in the areas of implant dentistry (DDS and post graduate), restorative dentistry (removable complete and partials), business applications and peer mentorship. Her research interests focus on functional rehabilitation of patients with knowledge translation impact on successful clinical, academic and outcome based environments. Dr. Cable maintains an active private practice at Empire Dental Associates focusing on functional rehabilitation of prosthodontic, maxillofacial prosthodontic and motor vehicle accident patients. She relies heavily on her MBA education to function as a mother of four (11 year old triplets and a 5 year old systems upgrade), while maintaining an enjoyable clinical environment with her brother.

*Attend DABC's AGM on Friday and have a chance to win the cost of your Convention Education Package, DACNet subscription for a year and Perfecting Your Practice in Mississauga on November 1/2, 2018!*

## SEPTEMBER 20, 2018

### CONTINUING EDUCATION

## PROTEC: Are you ready to go Digital?

*1:00 - 3:00pm with Neil Appelbaum*

A true digital workflow begins with an intra oral scanner. Partial dentures have a digital workflow, what do you need to know? Where are we with digital dentures? What are the advantages of digital and will it save you money in the long run?

### Neil Appelbaum

Neil Appelbaum, CDT, Kois Recognized Specialist Neil Appelbaum is a seasoned dental technician with more than 30 years' experience working in laboratories in South Africa and Canada. He holds the distinction of being a "Kois Specialist". His passion for new technology has ensured that the laboratory is at the forefront of digital dentistry as he plays a key role in the development of laboratory software and processes for manufacturing and customer service.

He has worked closely with several specialists on innovative techniques for implant treatment planning and restorative solutions. Neil has lectured on the digital workflow and scanner technologies, and on innovative new digital restorations. Neil Appelbaum is a Managing Partner at Protec Dental Laboratories in Vancouver British Columbia.

## Modern Frameworks

*3:15 - 5:15pm with Alex Tenzer*

From planning and wax-up to digital design, the making of cast partial frameworks is a complex topic has lots of possibilities. This presentation will give you an overview of how cast partial frameworks are made, manual and digital, and different ways of finishing including PEEK and SLM with a focus on printed frameworks. You will see many samples of patient and show cases and combination cases including attachments. In addition, there will be troubleshooting as well as helpful information for your daily work.

### Alex Tenzer

Mr. Alex Tenzer started his career in 1981 in Bremen, Germany. He comes with over 35 years of experience as a dental technician, with a superb German education and 27 years of working in the highly acclaimed dental industry in Germany. He specialises in cast partials and combination cases and has many years of experience with crowns and bridges and within the implant department. In addition, he has trained multiple new dental technicians throughout his years in the industry and taught laser welding to many other professionals. In 2008, he moved to Toronto with his wife and two daughters and works at Baluke Dental Studios as Supervisor in the cast partial department. He is also a speaker at different study clubs in the greater Toronto area.

**FRIDAY**

**SEPTEMBER 21, 2018**

**CONTINUING  
EDUCATION**

## **Troubleshooting Suction Dentures Q&A**

*8:15-10:15am with Erika Colebank, RD & Stephanie Yeats, RDT*

*Must be a certified SEMCD clinician or Technician.*

This two-hour course will discuss SEMCD Lower Suction Denture trouble shooting. Erika Colebank, RD and Stephanie Yeats, RDT will discuss common issues faced with fabricating Lower Suction Dentures, Q&A, and they will be troubleshooting cases brought by participants with them to the course.

### **Erika Colebank**

Erika Colebank has successfully owned and operated Beautiful Smiles Denture Clinic in Duncan, BC since 2005. She sits on the College of Denturist of BC and is one of only three certified trainers of the Lower Suction Effective Mandibular Complete Denture (SEMCD) in North America. Erika learnt the SEMCD technique in Japan from the inverter Dr.Abe. Erika had been teaching the technique since February 2017. Erika is also BPS certified in the new SEMCD BPS technique. When Erika isn't teaching or denturing you will find her riding her horse, making alcohol in the family distillery and spending time with her family.

### **Stephanie Yeats, RDT**

Stephanie graduated as a Registered Dental Technician in Cardiff, Wales 1993 and in BC in 2008. Since being in Canada her career has been focused on working exclusively with Denturists. Stephanie has studied under Dr Jiro Abe, Carl Fernwick, RDT, DD, Kenji Iwaki, RDT and Kyoko Kokubo RDT on the Lower Suction technique (SEMCD). She has trained and certified many Denturists, Dentists and Dental Technicians on the technical aspects of SEMCD.

## **VITA - Alternative Treatment Options for Aging Acrylic Dentures**

*8:30-10:30am with Mark Chan, DD*

In a world focused on digital technology, analogue concepts and techniques tend to be forgotten and/or cast aside, only to be resurrected to save the case! For many the concept of maintaining and providing solutions for the longevity of existing implant prosthetics does not come to mind. Millions of implant cases have been placed into function but what about repair and maintenance? This lecture will concentrate on re-care and re-processing of existing restorations using modern hybrid materials with specific protocols for consistent outcomes. Simplified processes, tools, and step-by-step workflows will be reviewed on how to "refresh" and "revive" existing and aging restorations that will help bring them back to life and will provide a "lost" service that can be profitable. This lecture will also encompass methods for 360 case planning, from provisional to permanent restorations. *(Course info, continued on next page.)*

*Complimentary Drinks and Appetizers Outside!  
Friday September 21, 4-6pm*

*(Course info, continued from previous page)*

### **Learning Objectives:**

- 360 treatment planning for the life of the prosthesis.
- Streamlined process flow for recreation of pink and white composites.
- Requirements for long-term hygiene and maintenance of implant prosthetics.
- Handling repairs and additions with new hybrid materials.

### **Mark Samuel Chan DD**

Received his diploma from Denturism in Toronto at George Brown College with honours. Currently Mark is practicing in Ontario with a main focus on high-end removable and implant prosthetics. With a passion for both technical and clinical techniques he is certified in Bio-logic, BPS and SDC denture concepts and is a ZunstZhanWerk "Art of Denture" award winning Denturist, he is a sought after consultant and opinion leader in the Denturist and Lab community.

### **Bill Barton**

Bill Barton, MBA (MM), CDT, TE is the Associate Manager Digital Services for Ivoclar Vivadent, Inc. Bill is a dental laboratory technician, manager and educator with over 35 years' experience in the industry. He served 25 years in the United States Air Force prior to joining the Ivoclar Vivadent Technical Services Department in 2009. His extensive technical background includes experience in all phases of fixed and removable prosthodontics. Bill's role is to lead the Digital Services customer support team and training & education programs at Ivoclar's International Centers for Dental Education, as well as perform in-depth product testing related to Ivoclar Digital processes.

## **Ivoclar Vivadent - Digital Workflow Options for Digital Denture Excellence...Six patients, six workflows, options, options, options"**

*1:45-3:45pm with Bill Barton*

This lecture covers key components for the fabrication of a premium denture utilizing Ivoclar's Digital Denture and Digital Denture Professional processes. It includes a comprehensive look at six clinical and laboratory innovative workflows as well as unique diagnostic instrumentation, equipment, and materials.

Attendees will gain a thorough understanding of the following:

1. How Ivoclar Digital provides a fully laboratory-based system approach to digital options for denture fabrication.
2. That precise clinical instrumentation and competencies ensure digital denture success.
3. Unique innovative laboratory workflows for digital dentures to include some analog options.
4. Advantages of fully monolithic milled teeth, specifically, for the immediate denture and immediate same-day implant (All-on 4/6) hybrid denture.
5. Exclusive 3Shape Digital Denture software add-ons, Ivoclar Digital Programill 5 & 7 milling units, and high-quality materials i.e. IvoBase CAD, SR Vivodent CAD, and ProArt CAD Wax.

## **Unexpected changes in Jaw Relationship, Erika Colebank, RD**

*Sept 21 1:45pm-4:00pm with Erika Colebank, RD*

*Must be a certified SEMCD clinician or Technician.*

Why do we sometimes see centric relation changes after some of our patients wear their first SEMCD, and how can we predict when this will happen? Participants will understand what causes postured centric relation, how to analyze a pin tracing to predict an unstable jaw, and how to set teeth to avoid posturing overtime.

# SATURDAY

# SEPTEMBER 22, 2018

# CONTINUING EDUCATION

## DomX

*8:15-9:45am with Dean Fenwick,  
Specialized Office Systems*

This course goes over less known but useful features in DOMx and ensures everyone has a full understanding of the recall features to ensure your business thrives and all patients get the care they need.

## Nobel Biocare - A revolutionary treatment concept for the edentulous patient Trefoil™ system

*8:30-10:30am with Kendall James*

The Trefoil system is a breakthrough in efficiency, making fixed, definitive teeth on the day of surgery\* a choice for many patients. Thanks to the pre-manufactured titanium bar with a unique fixation mechanism on just three implants, mandibular edentulism can be treated with reduced chair time and increased efficiency. Learn how this solution can be a bridge to a new patient population.

This course is intended for Denturists. The team approach is critical for this training. Success is dependent on the close collaboration between surgeon and technician.

*After this one-day course, the participant will...*

- Understand the concept of diagnostics and treatment options for advanced rehabilitation of the edentulous mandible.
- Be familiar with scientific support material and clinical evidence.
- Know the indications and limitations of treatment with the Trefoil system.
- Be able to identify the steps in the restorative procedure.
- Be familiar with clinical cases using the Trefoil system and know the benefits for the patient and the clinician.

### *Recommended course pre-work*

*In an effort to enhance your learning experience, we encourage attendees to select a potential case in advance for evaluation and discussion. Detailed treatment planning will be discussed during the lecture for those cases transferred in advance. As well, bring your patients CBCT if you have one and we can look at it in the software to determine if it's a good case.*

### Kendall James

Kendall James, DMD, CERTPROS, FRCD(C) completed his dental degree at the University of Sydney in Australia. His honours research was one of two projects to receive funding from the Australian Dental Research Foundation and was approved for publication. Kendall was actively involved in student politics and served on numerous professional committees subsequent to his graduation. Following a period of private practice in North Queensland, Kendall returned to North America to specialize in Prosthodontics at the University of Minnesota. Upon completion of his training, Kendall returned to Canada, practicing for two and a half years in Lethbridge, Alberta. His prosthodontic practice focused on surgical as well as restorative aspects of complex care, with extensive experience in all-on-four implant restorations as well as complex oral rehabilitations.

He ran a successful Seattle Study Club chapter in Alberta, and is looking forward to being involved with the VIP Study Club in Vancouver, also a Seattle Study Club affiliate. Kendall is a Board certified Prosthodontist and a Fellow of The Royal College of Dentists of Canada.

Kendall is a native of the lower mainland and is grateful to have the opportunity to practice on the North Shore.

# TRADESHOW: SATURDAY, SEPTEMBER 22, 9AM-1PM

**SATURDAY**

**SEPTEMBER 21, 2018**

**CONTINUING  
EDUCATION**

## **CDBC AGM & Complaint Process, Advertising Regulations and General Bylaw Information**

*1:00-4:00pm with Don Lebens*

The College of Denturists of BC will be offering a free 2-hour CE workshop on the complaint process, advertising regulations and general bylaw information. There will be an opportunity to ask questions at the end of the session. The workshop will be facilitated by Don Lebens, legal counsel for the College of Denturists of BC. Please contact the College at 604-515-0533 to register.

### **Don Lebens**

Don Lebens is a partner at the law firm of Branch MacMaster in Vancouver. He was called to the bar in 1997. Since then, he has acted in numerous regulatory matters, class action law suits, and life insurance and health claims, appearing before the B.C. Supreme Court, the Court of Appeal, the Supreme Court of Canada, the Health Professions Review Board, and other administrative boards and tribunals. The focus of his practice is administrative law and he has represented a number of health colleges, assisting with representations to the government, scope of practice reviews, bylaw drafting, registration issues and professional disciplinary actions. Don has worked with the College of Denturists of BC for close to 10 years.

## **Another way of looking at lumps and bumps in the mouth**

*2:15-4:15pm with Dr. Ng, Oral Pathologist*

Please join us for this interactive seminar designed to review oral lesions and dental therapeutics that oral care providers commonly encounter in a community practice. This seminar will reinforce the chair-side techniques for head & neck and intra-oral examinations. Techniques for written and photo documentation of oral lesions will also be discussed. The visual presentation and hands-on demonstrations of adjunctive evaluation tools will definitely make these topics interesting and educational. Topics includes, common benign oral lesions, microbial infections, and oral pre-cancerous lesion. Learning outcome in this interactive seminar:

Consolidate the clinical technique of performing an extra-oral and intra-oral soft tissue examination. Ability to diagnosis and treat non-odontogenic oral lesions commonly identified in a community setting. Recognize oral lesions/entities that should be 'red flag', and discuss the proper initial management Discuss the BC brewed technology used oral (pre-) cancer detection.

### **Samson Ng**

Samson Ng, BSc(Pharm), DMD, MSc, FRCD(C), FDSRCSEd, Dip. ABOM., Dip. ABOMP is a Canadian and American Board certified oral medicine specialist and oral & maxillofacial pathologist. He is currently appointed as clinical associate professor at the University of British Columbia, attending staff at the Department of Dentistry of the Vancouver General Hospital, attending staff in the Program of Oral Oncology/Dentistry in the BC Cancer Agency. Dr. Ng also operates a private practice which provides comprehensive oral medicine and pathology consultations, with a special interest in oral mucosal and temporomandibular joint diseases.

# DABC 2018 CONFERENCE AGENDA: September 20-22, 2018

## *Wednesday September 19th*

**3:00pm to 7:00pm      Registration**

## *Thursday, September 20th*

**6:30 am to 9:00 am      Breakfast Buffet - Restaurant**

**8:30 am to 12:00 pm      WHMIS**  
Pat Evangelisto

**9:00 am to 12:00 pm      CPR/AEC Level C Certification and Recertification**  
Life Preservers First Aid

**9:30 am to 11:30 am      Dentsply Sirona - Prosthodontically Driven Treatment**  
Dr. Cheryl Cable

**12:00 pm to 1:30 pm      Lunch Buffet - Restaurant**

**1:00 pm to 3:00 pm      Protec - Are you Ready to go Digital?**  
Neil Applebaum

**1:15 pm to 2:30 pm      CPR/AEC Level C Certification and Recertification - continued for certification**  
Life Preservers First Aid

**3:15 pm to 5:15 pm      Modern Frameworks**  
Alex Tenzer

**7:00 pm to 12:00 am      Henry Schein 80s night**
